Fitting Instructions:

Thunderbird

A9528032

A9528033

Thank you for choosing this Triumph genuine accessory kit. This accessory kit is the product of Triumph's use of proven engineering, exhaustive testing, and continuous striving for superior reliability, safety and performance.

Completely read all of these instructions before commencing the installation of the accessory kit in order to become thoroughly familiar with the kit's features and the installation process.

These instructions should be considered a permanent part of your accessory kit, and should remain with it even if your accessory equipped motorcycle is subsequently sold.

|-------------------------|-------|
| 2. Sissy bar bag, small | 1 off |
|-------------------------|-------|

Warning

This accessory kit is designed for use on Triumph Thunderbird motorcycles only and should not be fitted to any other manufacturer's motorcycle. Fitting this accessory kit to any other manufacturer's motorcycle will affect the performance, stability and handling of the motorcycle. This may affect the rider's ability to control the motorcycle and could cause an accident.

Warning

Always have Triumph approved parts, accessories and conversions fitted by a trained technician of an authorised Triumph dealer. The fitment of parts, accessories and conversions by a technician who is not of an authorised Triumph dealer may affect the handling, stability or other aspects of the motorcycle's operation which may result in loss of motorcycle control and an accident.

Warning

Throughout this operation, ensure that the motorcycle is stabilised and adequately supported to prevent risk of injury from the motorcycle falling.

Note:

- To fit the large sissy bar bag kit the following kits must be fitted to the motorcycle A9758130 and A9750517.
- To fit the small sissy bar bag the following kit must be fitted to the motorcycle A9758130.

1. Feed the upper strap between the backrest bracket and the backrest pad.

1. Upper strap, large bag shown
2. Backrest bracket
3. Backrest pad

Large Sissy Bar Bag - A9528032

2. Feed the two lower straps through the luggage rack, as shown below.

1. Upper strap
2. Lower straps
3. Luggage rack

3. Pull the upper strap down tightly and attach it to the hook and loop pad on the bag.
4. Pull the two lower straps so that the bag is against the luggage rack. Attach the straps to the hook and loop pads on the bag.

1. Upper strap
2. Lower straps
3. Hook and loop pad

Small Sissy Bar Bag - A9528033

5. Pull the upper strap down tightly and attach it to the hook and loop pad on the bag.
6. Wrap the hook and loop straps around the sissy bar and attach the straps together, as shown below.

1. Upper strap
2. Hook and loop straps
3. Sissy bar
4. Hook and loop pad

All Models

Warning

The maximum safe load for the large sissy bar bag is 5 kg (11 lbs). The maximum safe load for the small sissy bar bag is 2.5 kg (5.5 lbs). Never exceed this loading limit as this may cause the motorcycle to become unstable leading to loss of control and an accident.

Warning

To prevent detachment of the sissy bar bag during riding, after fitting always grab the bag and pull firmly upwards and to the side. A loose or detached bag could cause loss of motorcycle control and an accident.

Warning

If, after fitment of this accessory kit, you have any doubt about the performance of any aspect of the motorcycle, contact an authorised Triumph dealer and do not ride the motorcycle until the authorised dealer has declared it fit for use. Riding a motorcycle when there is any doubt as to any aspect of the performance of the motorcycle may result in loss of control of the motorcycle leading to an accident.

Warning

Never ride an accessory equipped motorcycle at speeds above 80 mph (130 km/h).

The presence of accessories will cause changes in the stability and handling of the motorcycle. Failure to allow for changes in motorcycle stability may lead to loss of control or an accident.

Remember that the 80 mph (130 km/h) limit will be reduced by the fitting of non-approved accessories, incorrect loading, worn tyres, overall motorcycle condition and poor road or weather conditions.

Warning

The motorcycle must not be operated above the legal road speed limit except in closed-course conditions.

Warning

Only operate this Triumph motorcycle at high speed in closed-course on road competition or on closed-course racetracks. High speed operation should only be attempted by riders who have been instructed in the techniques necessary for high speed riding and are familiar with the motorcycle's characteristics in all conditions.

High speed operation in any other circumstances is dangerous and will lead to loss of motorcycle control and an accident.
