

Accessory Fitting Instructions

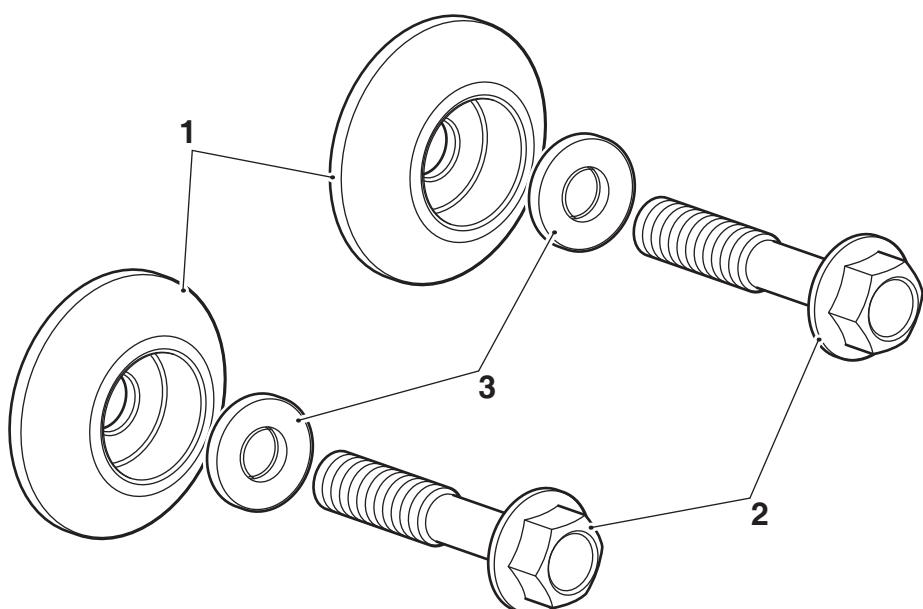

Rear Footrest Finisher Kit	
Kit Number	Models Affected
A9778037	Street Twin, Speed Twin 900, Street Cup, Bonneville T100 from VIN 759204, Bonneville T120, Thruxton 1200, Thruxton 1200 R

Thank you for choosing this Triumph genuine accessory kit. This accessory kit is the product of Triumph's use of proven engineering, exhaustive testing, and continuous striving for superior reliability, safety and performance.

Completely read all of these instructions before commencing the installation of the accessory kit in order to become thoroughly familiar with the kit's features and the installation process.

These instructions should be considered a permanent part of your accessory kit, and should remain with it even if your accessory equipped motorcycle is subsequently sold.

Parts supplied

1. Finisher, footrest, rear	2 off	3. Washer, M8 x 17 mm	2 off
2. Fixing, M8 x 43 mm	2 off		

Warning

The accessory kits covered in this instruction are designed for use on specific models of Triumph motorcycle. The accessory kits and the models applicable are listed at the start of the instruction. They should not be fitted to any other Triumph model or to any other manufacturer's motorcycle. Fitting an accessory kit to a Triumph model not listed, or to any other manufacturer's motorcycle will affect the performance, stability and handling of the motorcycle. This may result in loss of motorcycle control and an accident.

Warning

Always have Triumph approved parts, accessories and conversions fitted by a trained technician of an authorised Triumph dealer. The fitment of parts, accessories and conversions by a technician who is not of an authorised Triumph dealer may affect the handling, stability or other aspects of the motorcycle's operation which may result in loss of motorcycle control and an accident.

Warning

Throughout this operation, ensure that the motorcycle is stabilised and adequately supported to prevent risk of injury from the motorcycle falling.

Warning

A torque wrench of known accurate calibration must be used when fitting this accessory kit. Failure to tighten any of the fasteners to the correct torque specification may affect motorcycle performance, handling and stability. This may result in loss of motorcycle control and an accident.

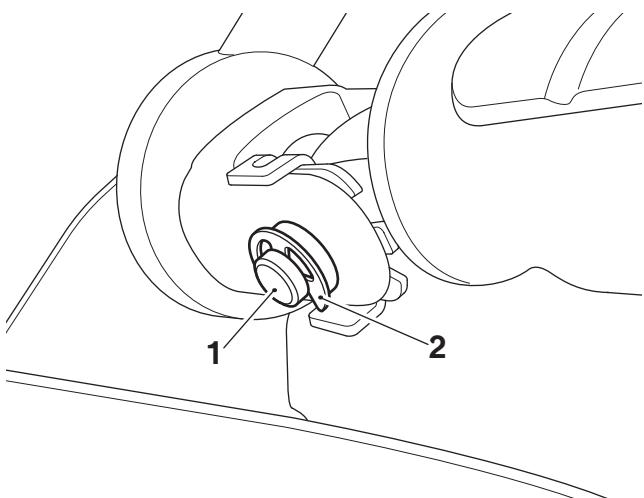

Warning

If the engine has recently been running, the exhaust system will be hot. Before working on or near the exhaust system, allow sufficient time for the system to cool, as touching any part of a hot exhaust could cause burn injuries.

Note:

- Triumph offers a broad range of approved genuine accessories for your motorcycle. We cannot therefore cover all possible equipment variations in these instructions. For removal and installation of Triumph Genuine Accessories, always refer to the instructions supplied with the respective accessory kit. To obtain additional copies of any Triumph accessory instructions, visit www.triumphinstructions.com or contact your authorised Triumph dealer.

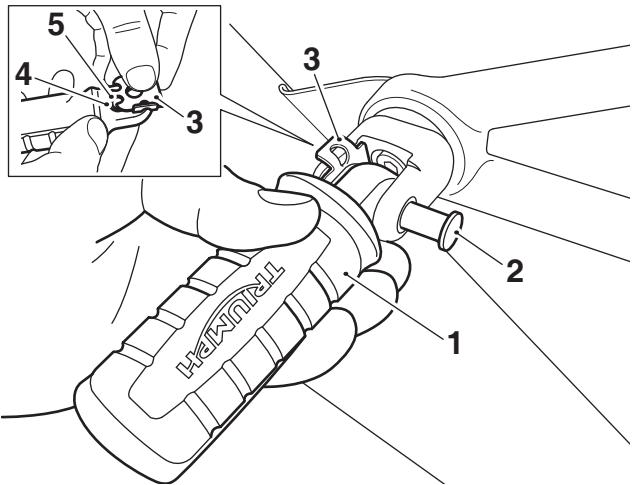

1. Remove the circlip from the pivot pin on the rear right hand footrest. Retain the circlip for reuse if the motorcycle is to be returned to its original condition.

1. Pivot pin

2. Circlip

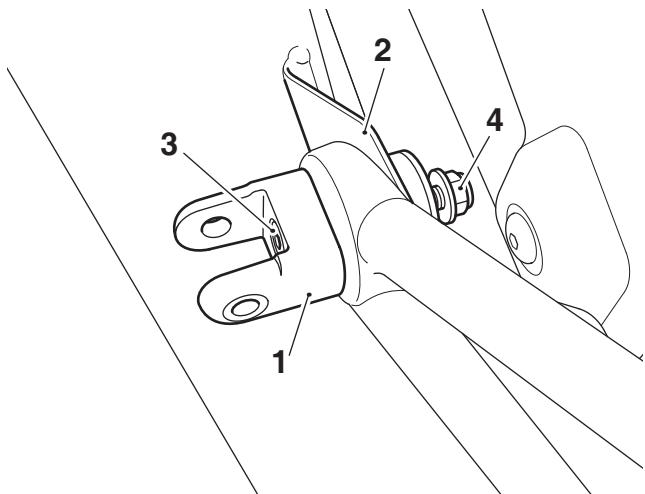

2. Holding the plate against the footrest, to ensure the ball and spring remain in position in the footrest, remove the pivot pin and footrest. Retain the footrest, pivot pin, plate, ball and spring for reuse if the motorcycle is to be returned to its original condition.

1. Footrest
2. Pivot pin
3. Plate
4. Spring
5. Ball

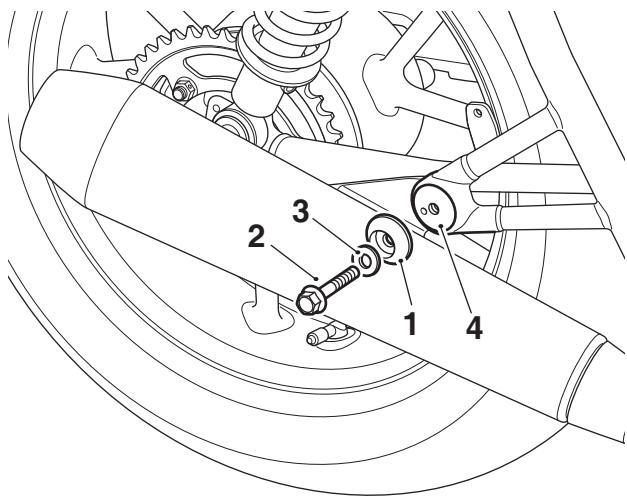

Note:

- Ensure the silencers are supported before removing the rear footrest mounts and fixings.
3. Remove the fixing, lock nut and rear right hand footrest mount from the motorcycle. Retain the lock nut for reuse. Retain the fixing and footrest mount for reuse if the motorcycle is to be returned to its original condition.

1. Rear footrest mount, right hand
 2. Silencer mounting bracket
 3. Fixing
 4. Lock nut
4. Repeat steps 1 to 3 for the left hand side.

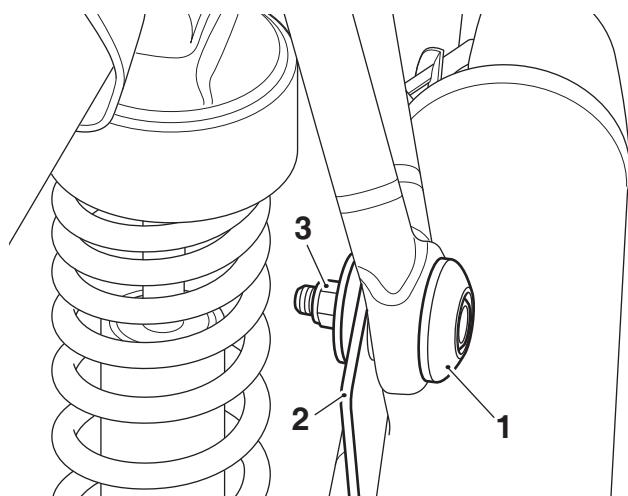

5. Fit one of the finishers with an M8 x 43 mm fixing and washer from the kit to the right hand rear footrest mounting position on the frame, as shown.

1. Finisher
2. Fixing, M8 x 43 mm
3. Washer, M8 x 17 mm
4. Rear footrest mounting

Note:

- Lock nuts can be re-used providing resistance can be felt when the locking portion passes over the thread of the bolt or stud. Always use the correct replacement lock nut as recommended in the Triumph parts catalogue.
6. Fit the original lock nut, as shown. Tighten the fixings to **24 Nm**.

1. Finisher
2. Silencer mounting bracket
3. Lock nut

7. Repeat steps 5 and 6 for the left hand side.

Warning

When the rear footrests have been removed do not carry a passenger. A passenger who is not able to use footrests will be unable to sit securely on the motorcycle and may result in loss of motorcycle control and an accident.

Warning

If, after fitting this accessory kit, you have any doubt about the performance of any aspect of the motorcycle, contact an authorised Triumph dealer and do not ride the motorcycle until the authorised dealer has declared it fit for use. Riding a motorcycle when there is any doubt as to any aspect of the performance of the motorcycle may result in loss of motorcycle control and an accident.

Warning

Never ride an accessory-equipped motorcycle at speeds above 80 mph (130 km/h).

The presence of accessories will cause changes in the stability and handling of the motorcycle. Failure to allow for changes in motorcycle stability may result in loss of motorcycle control and an accident.

Remember that the 80 mph (130 km/h) limit will be reduced by the fitting of non-approved accessories, incorrect loading, worn tyres, overall motorcycle condition and poor road or weather conditions.

Warning

The motorcycle must not be operated above the legal road speed limit except in closed-course conditions.

Warning

Only operate this Triumph motorcycle at high speed in closed-course, on-road competition or on closed-course racetracks. High-speed operation should only be attempted by riders who have been instructed in the techniques necessary for high speed riding and are familiar with the motorcycle's characteristics in all conditions.

High-speed operation in any other circumstances is dangerous and may result in loss of motorcycle control and an accident.
