

Accessory Fitting Instructions

Thank you for choosing this Triumph genuine accessory kit. This accessory kit is the product of Triumph's use of proven engineering, exhaustive testing, and continuous striving for superior reliability, safety and performance.

Completely read all of these instructions before commencing the installation of the accessory kit in order to become thoroughly familiar with the kit's features and the installation process.

These instructions should be considered a permanent part of your accessory kit, and should remain with it even if your accessory equipped motorcycle is subsequently sold.

WiFi Module	
Kit Number	Models
A9820117	TF250-X

Parts supplied

1. WiFi module	1 off	2. Cable tie	2 off
----------------	-------	--------------	-------

⚠ WARNING

Fit only genuine Triumph accessories to those models approved by Triumph as listed in the associated Triumph fitting instructions.

The accessory kits covered in this instruction are designed for use on specific models of Triumph motorcycle. The accessory kits and the models applicable are listed at the start of the instruction. They should never be fitted to any other Triumph model or to any other manufacturer's motorcycle.

Fitting an accessory kit to a Triumph model not listed, or to any other manufacturer's motorcycle, will affect the performance, stability and handling of the motorcycle.

Failure to follow the advice above may lead to loss of motorcycle control which could result in serious injury or death.

⚠ WARNING

Always have Triumph approved parts, accessories and conversions fitted by a competent person with the specialist knowledge and technical understanding of motorcycles, such as an authorised Triumph dealer.

The fitment of parts, accessories and conversions by a person without the specialist knowledge and technical understanding of motorcycles may affect the handling, stability or other aspects of the motorcycle's operation.

Failure to follow the advice above may lead to loss of motorcycle control which could result in serious injury or death.

⚠ WARNING

A torque wrench of known accurate calibration must be used when fitting this accessory kit.

Failure to tighten any of the fasteners to the correct torque specification may affect motorcycle performance, handling and stability.

Failure to follow the advice above may lead to loss of motorcycle control which could result in serious injury or death.

⚠ WARNING

Make sure the motorcycle is stabilised and adequately supported.

Do not support the motorcycle on any ancillary component, the exhaust system or any other non structural parts of the motorcycle frame.

A correctly supported motorcycle will help prevent it from falling.

An unstable motorcycle may fall resulting in motorcycle damage, serious injury or death.

NOTICE

Triumph offers a broad range of approved genuine accessories for your motorcycle.

We cannot therefore cover all possible equipment variations in these instructions. For removal and installation of Triumph Genuine Accessories, always refer to the instructions supplied with the respective accessory kit.

To obtain additional copies of any Triumph accessory instructions, visit www.triumphinstructions.com or contact your authorised Triumph dealer.

1. Remove the seat as described in the Service Manual.
2. Disconnect the battery as described in the Service Manual.
3. Remove the number board as described in the Service Manual.
4. Note the SSID and password from the WiFi module for connecting to the device.

1. WiFi module
2. SSID
3. Password

NOTICE

Note the position of the switch harness and the WiFi connectors for installation.

5. Detach the main harness connectors of the WiFi module and the switch from the WiFi module housing.

6. Remove the blanking plug from the main harness connectors of the WiFi module and retain for reuse if the motorcycle is to be returned to its original condition.

1. Switch harness connector
2. Main harness connector, WiFi module
3. Blanking plug
4. WiFi module housing

CAUTION

When cutting cable ties, always use the correct tools and personal protection equipment. Failure to use these may result in personal injury.

7. Position the WiFi module on the WiFi module housing as shown.
8. Secure WiFi module to the WiFi module housing using the cable ties from the kit. Make sure any additional cables or wiring harnesses are not trapped while securing the WiFi module.
9. Trim off any excess cable ties.

10. Connect the WiFi module harness to the main harness connector and attach it to the WiFi housing as noted for removal.

NOTICE

The MX Tune Pro application is used to control the WiFi module.

Download and install the MX Tune Pro application with a compatible Android or iOS device.

Refer to the MX Tune Pro application user guide for connecting the WiFi module.

MX Tune Pro Application User Guide

NOTICE

It is advised to download the user guide to the Android or iOS device the MX Tune Pro application will be running on.

When the application is connected to the motorcycle via the WiFi module the user will be unable to connect to the internet.

This document must be printed out and handed over to the customer at the time of motorcycle handover.

The MX Tune Pro Application User Guide can be downloaded from:

⚠ DANGER

Motocross is a dangerous sport.

Motocross should only be attempted by riders who have been instructed in the necessary techniques for this type of competition and are familiar with the motorcycle's characteristics in all conditions.

Motocross by riders who have not been instructed in the necessary techniques is dangerous, leading to loss of motorcycle control which will result in serious injury or death.

⚠ WARNING

High-speed operation should only be attempted by riders who have been instructed in the techniques necessary for high-speed riding and are familiar with the motorcycle's characteristics in all conditions.

Only operate this Triumph motorcycle at high speed on closed-course racetracks.

High-speed operation in any other circumstances is dangerous and may lead to loss of motorcycle control which could result in serious injury or death.

⚠ WARNING

After fitting the accessory kit the motorcycle will exhibit new handling characteristics.

Operate the motorcycle in a safe area free from traffic to gain familiarity with any new characteristics.

Operation of the motorcycle when not familiar with any new handling characteristics may lead to loss of motorcycle control which could result in serious injury or death.

⚠ WARNING

If, after fitting this accessory kit, you have any doubt about the performance of any aspect of the motorcycle, contact a competent person with the specialist knowledge and technical understanding of motorcycles, such as an authorised Triumph dealer.

Riding a motorcycle when there is any doubt as to any aspect of the performance of the motorcycle may lead to loss of motorcycle control which could result in serious injury or death.
